PROFESSIONAL EXPERIENCE

IT support engineer - TATA Consultancy services

May 2022 - Present

- Provided ongoing maintenance and operational support for **Windows systems**, ensuring consistent **security and stability** for end users.
- Managed **user accounts, permissions**, and **Group Policy Objects (GPO)** via **Active Directory** to maintain access control and organizational policies.
- Provided **Level 1** and **Level 2** technical support for **hardware, software**, and **network**-related issues, handling **90+ support tickets per week** while maintaining high user satisfaction.
- **Ensured compliance and asset integrity** through regular **audits, system documentation**, and timely **patching and updates**.
- Effectively communicated with **non-technical users**, offering clear instructions and **solutions** to help them understand system functionalities and resolve issues.
- Troubleshooting of **Network slowness** for Projects in Locations and providing solution.
- Assisted in **user account management IAM (Active Directory, Email, VPN access)** and ensured **data security** compliance.
- Performed **account creation, permission updates**, and deactivation during onboarding/offboarding.
- Resolved user **authentication** and **access-related** issues promptly.

- Demonstrated strong **client-centric communication** by assisting non-technical users with clear explanations, ensuring a positive support experience.
- Provided **troubleshooting** for Windows OS, O365 applications, Outlook, software installations, and server-related issues, ensuring minimal downtime for end users.
- Coordinated with **vendor** teams to source and provide quotations for new devices, ensuring timely **procurement** based on user requirements and company standards.
- Logged and **managed support** cases with Apple for in-warranty Mac devices, coordinating diagnostics and repairs to ensure timely resolution.
- Handled end-to-end warranty **support for enterprise** devices by raising cases with OEM vendors following up on diagnostics, part replacement, and repair activities until closure.
- Adapted to changing **priorities** and maintained a positive attitude in high-pressure environments while meeting tight deadlines.
- Maintained high **discipline** in daily ticket handling and showed willingness to work extended hours when needed to **support business continuity**.
- Provided onsite technical support during client visits by preparing systems, resolving issues quickly, and ensuring a smooth and professional experience.
- Maintaining IT infrastructure including laptops, desktops, printers, AV devices and networks (LAN/WAN).

EDUCATION

Bachelor of computer science

Jun 2018 - APR 2021

Muthyammal college of art's and science - Rasipuram

PROJECTS & ACHIEVEMENTS

- Developed a custom PowerShell script to automate Windows patch update related issues, approval, and deployment across enterprise systems.
- Managed and maintained Intune configuration profiles, compliance policies, Windows Update rings, and endpoint security policies tailored for different user groups and device types.
- Improved system deployment time by 40%
- Reduced ticket backlog by 30%

ADDITIONAL INFORMATION

- **Languages:** English, Tamil
- **Certifications:** Google IT Support Professional Certificate issued by Google - 2022
Networking for Cisco Certified Network Professional issue by CNA -2025

ABOVE & BEYOND

- Reduced repeat tickets by 20% by designing user guides and FAQ materials.
- Enabled faster onboarding by conducting IT system orientation for new employees.
- Increased hardware tracking accuracy by improving audit documentation standards.
- Assisted high-priority escalations, helping maintain 99% CSAT and ensuring smooth operations.
