 LinkedIn  Portfolio

Professional Summary

Experienced and detail-oriented System Administrator with over 3+ years of expertise in managing and maintaining enterprise IT infrastructure. Proficient in Windows, Linux, and cloud environments with a strong focus on system security, uptime, automation, and performance optimization. Adept at troubleshooting complex technical issues and implementing scalable IT solutions that enhance business operations.

Work Experience

System Administrator

TATA Consultancy Services - Chennai, India

2022 - Present

- Installed, configured, and maintained Windows operating systems, ensuring system **stability and security** for internal users.
- Managed user accounts, permissions, and **Group Policy Objects (GPO)** via Active Directory to maintain access control and organizational policies.
- Provided Level 1 and 2 technical support for hardware, software, and network-related issues, resolving **60+ support tickets per week** and maintaining high user satisfaction.
- Ensured compliance and asset integrity through regular audits, system documentation, and timely patching and updates.
- Effectively communicated with non-technical users, offering clear instructions and solutions to help them understand system functionalities and resolve issues.

PROJECTS & ACHIEVEMENTS

- Developed a custom PowerShell script to automate Windows patch update issue, approval, and deployment across enterprise systems.
- Integrated with WSUS for streamlined patch roll-out and compliance reporting.
- Reduced patching time by 40% and improved overall compliance by 25%.
- Managed and maintained Intune configuration profiles, compliance policies, Windows Update rings, and endpoint security policies tailored for different user groups and device types.
- Authored a comprehensive internal document outlining Windows patch management best practices covering life cycle management, automation, testing, and rollback strategies.
- Conducted internal IT training sessions to improve team knowledge on security best practices.
- Created troubleshooting guides and step-by-step manuals to assist junior administrators and improve resolution times.
